

HAMERSVILLE BOARD OF PUBLIC AFFAIRS
October 23, 1989; 7:30 p.m.
HAMERSVILLE COMMUNITY BUILDING

Jim Hanselman called the meeting to order.

Bills were read and paid.

Discussion was held concerning the problem at the Hane's property on Travis. Conley has checked it and said if it was a water leak the water would be bubbling up. This is not happening so he believes there is not a water leak.

Lynn informed the board that the alternator on the truck went out and Kirby has looked at and estimated a new alternator at \$1500.00 Board said it should be fixed so to continue.

Discussion was held concerning the cable that was torn down behind the church. A semi hit the cable and tore it down. If this low wire persists we should discuss with the cable company the options of raising the cable. It was brought to the attention of the board that the roof on the building housing the little truck was leaking. Board asked that Talley and Colby fix the roof, and to use their judgement if they needed to call a roofer instead.

Discussion was held regarding the boardmember vacancies. Names were brought up but no official noticies to be sent out as of yet.

Motion by Ginn to adjourn, Seconded by Staggs, Motion carried.

James W. Hanselman
President

Debra S. Ginn
Clerk-treasurer
